

**Teodora**, the musical drama play, consists of several scenes tracing the life and relocation of Teodora Verbitskaya. The play is driven by the questions asked of Teodora by the United Nations Relief and Rehabilitation Administration (UNRRA) official. Her responses result in the dialogue and songs. The songs trace her life from the beginning with her husband, Dmitriy, and her daughters, Nadia and Lyucia, to the moment she hopes to board the ship USS General Sturgis for a new life.
